Subject: [Oruba-L] PI exception streamlining

Colleagues,

To assist in reducing department and ORU administrative workload associated with Principal Investigator Exceptions for non-eligible series (PPM 150-10), effective September 1, 2010, the following actions are available to departments.

Assistant Project Scientist	Blanket exception, up to one year in duration. Must be in place at time of initial award.
Adjunct Professor (without salary)	Exception required at time of award
New appointment proposed or pending in an Eligible series or Eligible by Exception series	Exception required at time of award

The requirement for an approved PI exception, at time of proposal submission, remains for all other non-PI eligible series. If you have any questions, please contact George Tynan (gtynan@ucsd.edu) or Marianne Generales (mgenerales@ucsd.edu).

Best regards,
Art Ellis
