

## ORUBA/ABA Meeting

April 11, 2013

ERC Price Center West

9am-11am

### Agenda

9am-10am:

Brittany Whiting, UCSD's first Export Control Officer, effective January 1, 2013. Ms. Whiting will serve as the campus leader and resource for designing, developing, and implementing an effective export control education, licensing, and compliance program at UC San Diego. Federal regulators have increased their scrutiny of export control compliance by colleges and universities primarily due to concerns about homeland security and unauthorized releases of technology to U.S. economic competitors. Ms. Whiting's primary responsibility is to ensure we are meeting the needs of our faculty and researchers by providing support and expertise in these areas.

10am – 11am:

ORUBA members only. Updates and Q&A with Marianne Generales and Anna Gheissari.
